

21st International Conference TOTh 2027

Call for Papers & Posters

www.toth.condillac.org

UNIVERSITÉ SAVOIE MONT BLANC

Chambéry

(France)

3 & 4 June 2027

Onsite & Online

The 21st Edition of the Longest-Running International Conference devoted to Terminology

Created in 2007, the TOTh community draws together researchers, teachers, trainers, practitioners, users and industrialists whose interests concern **Terminology** and, in a more general way, the links between language and knowledge in the context of our discipline, taking into account conceptual and technological advances in disciplines such as **Artificial Intelligence**.

TOTh is open to all streams of thought and sets out to provide a forum of exchange and sharing where problems are presented along with solutions and feedback from experience, on both the theoretic and the applied planes, as well as new tendencies and perspectives in the disciplines associated with Terminology (translation, lexicography, knowledge engineering, the information sciences …).

The TOTh international community comprises more than 20 different nationalities and the most prominent personalities in the domain. The official languages are English and French. The annual events that TOTh organizes include a **Conference**, a **Training session**, and a **Workshop**.

Under the patronage of an international scientific committee, the TOTh Conferences cover an extensive field of studies and research concerning terminology and/or ontology. The opening talk, given by a renowned personality within his/her domain, aims to open new disciplinary fields that can relate to those from TOTh.

Scheduled every year at the University of Savoie (France) on two days in early June, the TOTh Conferences are preceded by a training session on a subject related to **Terminology and Artificial Intelligence**.

A **Young Researcher prize** has been awarded since 2011 *(all the authors of the paper must belong to this category)*.

Submission deadline
(3–5-page extended abstract)

January 10, 2027

Notification of acceptance

February 14, 2027

Working languages:
English and French

UNIVERSITY OF CRETE

Deadline for submission: **January 10, 2027**

Notification of acceptance: February 14, 2027

Conference TOTh

June 3 & 4, 2027

Scientific Committee:
www.toth.condillac.org/committees

Training Session

June 1 & 2, 2027

« Terminology & Artificial Intelligence »

Conference Location **(June 3-4)**

Polytech
Campus Scientifique
73376 Le Bourget du Lac

Training Location **(June 1-2)**

Polytech
Campus Scientifique
73376 Le Bourget du Lac

Terminology:

- Theories and methods in terminology,
- Harmonisation of terms, harmonisation of concepts,
- Standardisation, standards, role of experts,
- Terminological commissions,
- Terminology planning, terminometry.

Linguistic approaches:

- Language for special purposes, translation, specialized lexicography,
- Multilingualism,
- Text and discourse theories, lexical semantics,
- Usage, variation, collocations, phraseologies in Terminology,
- Corpus processing and natural language processing: text mining, extracting terms, extracting knowledge, corpus building, corpus aligning,
- Creating and maintaining terminological resources, harmonizing terms and concepts, importance and limitations of corpora,
- Theories of meaning, semantics,
- Validating the quality of data, the role of experts.

Artificial Intelligence:

- Knowledge Representation: Ontology, Knowledge Graph, evaluation (quality), maintenance, alignment, merging,
- Generative AI, Large Language Models, Machine Learning,
- Natural Language Processing,
- Semantic Web, Linked and Open Data,
- Languages for knowledge representation and knowledge sharing.

Applications :

- Building and maintaining terminologies, glossaries, dictionaries, ontologies, thesauri,
- Computer-assisted translation, mono and multilingual content management systems, information retrieval, classification, knowledge management, information systems, etc.
- Digital Humanities and Cultural Heritage
- Information Retrieval
- Specialized Digital Libraries,
- Assessing acquisition and manipulation tools, standards in the field of language, terminology and ontology resources.

TALOS AI for SSH
Project Number: 101087269

Funded by the European Union

Information: contact@toth.condillac.org

Submission: **https://easychair.org/conferences/?conf=toth2027**

Registration Fees

Conference:	Training:
Students: 25 €	Students: 50 €
Academic: 75 €	Academic: 100 €
Industrial: 150 €	Industrial: 150 €
